Mckinney Trailer Rentals Announces New State-of-the-Art Maintenance Facility

For Immediate Release

Pico Rivera, CA (2017) Mckinney Trailer Rentals, a leading provider of trailer equipment rentals and leases announces completion of its new maintenance facility in Irving, Texas. The new facility compliments their 15-acre location and provides increased maintenance servicing for Dallas/Fort Worth customers.

“Demand for trailer rental and leasing has increased steadily in this area of the country and maintenance is a critical component for Mckinney. We are pleased to provide a cutting edge facility that will benefit trailer rental customers in our region,” said Mckinney Director of Maintenance, Don Panopio. “This project illustrates another way that Mckinney Trailer Rentals leads the industry as one of the only trailer rental and leasing companies providing their own maintenance shops and mobile service technicians.”

Thirteen technicians, including three mobile technicians, will be working out of the new shop. A second shift of technicians will also be implemented. This will ensure that quality work is done in a timely manner to complete necessary preventive maintenance and repairs.

The new building will include a fiber optic internet connection, LED lighting and energy saving skylights. There are 10 fully-equipped mechanics’ bays and an awning on the outside for a total of 13 workable bays. “We are excited to have the maintenance shop up and running,” said Service Manager Jim Buckner. “The new facility will position Mckinney to provide more efficient and effective trailer repairs for our customers in the southwest.”
